PART IINarrative Summary

From 1-30 April 1968, the 1st Battalion, 3d Marines participated in Operation NAPOLKON/SALINE within the CUA VIET River Area Complex. The Battalion's overall mission during this period was to deny the enemy access to the river area and ensure uninterrupted traffic thereon. This was accomplished by conducting systematic Company and Platoon Search and Destroy Operations along the south bank of the river and a Battalion (-) Operation to the southeast of the AO. Activity during this period included sightings of small groups of NVA/VC, one engagement with an organized enemy force, and collecting a large quantity of rice from VC controlled areas for delivery to GVN Officials.

6. Logistics. During the month of April, the four rifle companies and H&S Company (-) were deployed on Operation NAPOLEON/SALINE. During this period, the Battalion maintained a Logistic Support Area (LSA) at (YD 296654). This LSA was established in early March 1968 and was supplied directly from FLSG-B at DONG HA Combat Base, and from a Supply Distribution Point established by the 3d Marines at the mouth of the CUA VIET Waterway. Certain Class I and IV items were provided by the Battalion to one Company OPCON to the 1st AmTrac and located at C-4. Supplies were transported on the CUA VIET Waterway by LCM-8's and Multi-purpose Barges. Resupply was effected from the LSA by LVTP-5's and OTTER's. The LSA stocked three days Class I, seven days Class II (gasoline), and five days Class V.

7. Supply. During the month of April, 159 Requisitions were submitted. Of these, 67 were filled and 43 were cancelled.

8. Motor Transport. Motor Transport maintenance continued to be excellent during this period. The one continuing problem was the shortage of starters for the M274A2. The deadlining rate for the month of April was 21%, with the majority of the vehicles deadlined being M274A2's.

9. Administration

a. The usual administrative problems were encountered during this time, however, overall administration was considered to be satisfactory.

11. Intelligence. During the month of April intelligence reports indicated the elements of the 808th and 314th NVA Regiments were operating in the southeastern corner of the AO. Contact was made with one of these units on 17 April 1968 at (YD 350617) in the Le Xuyen area. This was the only major enemy contact for the month. Sniper activity was confined to the eastern and southeastern sections of the AO, around the villages of Bo Bang (YD 335627), Le Xuyen (YD 345633) and An Trach (YD 354623). Numerous surprise firing devices were encountered in Bo Bang (YD 335623) in the area north of Le Xuyen (YD 340646, 340648, 353640) and in the area between Le Xuyen and An Trach (YD 346628, 248626, 350628, 354628, 355641). When the AO was extended south, it was noted that the number of surprise firing devices increased in Than Lay Quang (YD 365615) and Than Lang Quang (YD 375602). Liaison with the Trieu Phong District Headquarters enabled this organization to utilize Popular Forces in conjunction with patrols and night activities. There were four interpreters, and six "Kit Carson" Scouts attached to the Battalion during the month of April 1968.
